INVESTMENT MANAGEMENT

The investment policy of the Oklahoma City Community Foundation calls for a portfolio of equities and fixed income securities that is highly diversified. Capital preservation, protection against inflation and long term growth are the fundamental objectives of the Community Foundation's investment strategy.

Responsibility for investment policy and manager selection rests with a seven member investment committee composed of four Trustees or former Trustees and three non-Trustee Oklahoma City community leaders with strong investment expertise. The investment committee for Fiscal Year 2010 was chaired by Steven C. Davis and included Paul Dudman, James H. Holloman, Jr., and Kirkland Hall. Community representatives were Jenee' Naifeh Lister, Scott Mueller and Gary Pierson. J. Edward Barth, Christian Keese, and Steve Mason served as ex-officio members.

This committee, along with investment counsel, Hotchkiss Associates, LLC, determined asset allocation between equities, fixed income, and cash. As of June 30, 2010, the target percentage of the general pool invested in equities was 62.5 percent, with 34.5 percent in fixed income, and a 3 percent allocation to cash. To provide diversity in the portfolio, the committee addresses allocation as to different styles of equity management and chooses style specific professional investment managers. Investment portfolios and performance are reviewed quarterly by the investment committee, with the managers being judged on a time horizon of three to five years.
