“We didn’t just build a futsal court, we built inspiration throughout our students and the community to lead active and healthy lives.”

*Pam Miller,
Principal of Rollingwood Elementary*

With limited space on their campus, Rollingwood Elementary was looking for a way to increase activity for both students and the surrounding community. Through a grant from our Parks & Public Space Initiative, we helped the school convert an empty, unused space into an enclosed, multi-purpose futsal court. Today, an explosion of activity overwhelms the renovated area throughout the school day and into the weekend, transitioning the area into an activity hub for Putnam City’s Rollingwood neighborhood.
